Why choose LOGICODE solutions?

- Our mission is to support the growth of our customers by providing complete solutions for their business;
- We develop, integrate and implement solutions to help organizations improve efficiency, productivity and performance;
- Our team of specialists is fully capable to design complete solutions (Hardware & Software & Services), at a minimum TCO (Total Cost of Ownership);
- We provide consultancy, maintenance & support services throughout the entire lifecycle of equipments;
- The experience we accumulated in 15 years of market presence gave us the know-how to solve specific customer requests for coding, labeling, Auto ID and data capture applications, using barcode and RFID technologies;
- We developed strong partnerships with market-leading producers, so that we are able to offer to our customers the latest and the most advanced products and technologies.

*ERP = Enterprise Resource Planning
*WMS = Warehouse Management System
*SFA = Sales Force Automation
*DSD = Direct Store Delivery

What do we provide to our customers?

Our customers portfolio includes leading companies, but also medium and small companies, from various industries (FMCG, retail, automotive, banking, services). We implemented solutions that include a wide range of applications, like:

- Labeling with/without barcodes;
- Industrial coding & labeling on production lines;
- Product traceability;
- Access control and personnel check;
- Production management;
- Warehouse management;
- Quality control;
- Fixed assets inventory;
- DSD (Direct Store Delivery);
- PoD (Proof of Delivery);
- PreSale, HotSale, VanSale;
- SFA (Sales Force Automation).

	TECHNOLOGIES	HARDWARE & SOFTWARE
CODING & LABELING	<ul style="list-style-type: none"> • direct thermal printing; • thermal transfer printing; • print & apply; • ink jet; • laser. 	<ul style="list-style-type: none"> • coding & labeling equipments, on film, shrinkwrapped foil, collective boxes, packages, PETs; • printing equipments on self-adhesive labels, product labels, carton, plastic, textile, etc.; • consumables: labels, ribbons, ink; • label design software.
INTEGRATION	<ul style="list-style-type: none"> • enterprise applications & system integration (ERP, WMS, POS); • middleware; • standard platforms and operating systems; • multi-language programming. 	<ul style="list-style-type: none"> • development environments: Microsoft Visual Studio .NET, MCL, device specific; • Microsoft Windows (CE, Mobile, XP, Vista, 2003, etc.), Unix/Linux.
COMMUNICATION	<ul style="list-style-type: none"> • WLAN (Wireless Local Area Network); • WWAN (Wireless Wide Area Network); • communication protocols & interfaces. 	<ul style="list-style-type: none"> • RS232, PS/2, USB; • Bluetooth & infrared connections; • WiFi. IEEE 802.11 a,b,g; • GPRS, GPS; • TCP/IP, FTP, Telnet, terminal emulation; • data transmission software (transport, routing, packaging); • PIM (Product Information Management).
ADC & MOBILITY	<ul style="list-style-type: none"> • barcodes; • RFID. 	<ul style="list-style-type: none"> • scanners & readers; • RFID tags; • mobile or fixed industrial computers, (rugged or durable); • software solutions - WMS, SFA, DSD, fixed assets inventory, logistic label printing, stock management.
